Complete control at your fingertips

One app
does it all!

Audio

Enjoy wall-to-wall sound in each room with a swipe of your finger

Video

Browse and play your TV shows or movies with the touch of a button

Lighting

Control lighting scenes and turn off all your lights with a single touch

Comfort

Save on energy when not at home with your ideal temperature

Shades

Set your motorized shades to close during the brightest hours of the day

Security

Monitor the alarm, peek at your cameras and lock your front door from anywhere

Control that grows with you

Enhance your Life

Imagine a world where technology simplifies your life. Where it protects you, entertains you, keeps you comfortable and gives you more free time for the things that really matter... Homesync makes this dream a reality!

A Smart Home is a Smart Idea

Imagine a home that wakes up when you wake up. Temperature that drops and shades that close as the sun hits. A home that sleeps when you sleep. Now imagine all this and **Living Green**. It's easy to save energy—and money—without compromising comfort.

Life is just better with a little more control.

"I just love the system and simple interface. It makes my life that much easier and to wirelessly control the whole system from my iPad is pretty cool. HomeSync's solution exceeded my expectations." — Patricia H.
